Intellipharma Announces Resubmission of New Drug Application to the U.S. FDA for its Oxycodone ER

Toronto, Ontario, March 4, 2019 Intellipharma International Inc. (Nasdaq and TSX:IPCI) ("Intellipharma" or the "Company"), a pharmaceutical company specializing in the research, development and manufacture of novel and generic controlled-release and targeted-release oral solid dosage drugs, today announced that it has resubmitted its New Drug Application ("NDA") to the U.S. Food and Drug Administration ("FDA") for its Oxycodone ER product candidate.

The Company's NDA for an abuse-deterrent version of Oxycodone ER was initially accepted for filing by the FDA in February 2017. Intellipharma resubmitted the NDA in response to a Complete Response Letter ("CRL") received from the FDA, which provided certain recommendations and requests for information. The FDA granted us an extension to February 28, 2019 to resubmit our NDA under section 505(b)(2) of the U.S. Federal Food, Drug and Cosmetic Act and the Company has now met this deadline.

There can be no assurance that Intellipharma will not be required to conduct further studies for Oxycodone ER, that the FDA will approve any of the Company's requested abuse-deterrent label claims or that the FDA will ultimately approve the NDA for the sale of Oxycodone ER in the U.S. market, or that it will ever be successfully commercialized.
